5. Maintenance

Allison - The dealing machine has been faulty. It was sent away to Whanganui for repair and returned with concern that it had not been properly looked after. ONE person to take responsibility for it works better than several persons. Vicki and Karen and Michael have assisted with the vetting of the dealing document but the person to take this overall responsibility is yet to be appointed. Bar codes have been ordered for the boards to eliminate the duplication of boards and the club now has instructions for the cleaning and regular care needed for the machine.

Tony – has replaced the fire alarm in the office. He will replace the one in the toilet.

He replaced the stopper on the women's toilet door.

Tony reported that the best bridge tables are the green ones but these currently cannot be sourced.

A general question was raised regarding the refilling of the paper towels in the men's toilet. This is everyone's responsibility and there are more paper towels in the cupboard.

Inge inquired whether the heat pumps can be set over the winter to come on at 7 am for the Monday morning players. Tony to investigate this possibility.
